## School Description and Mission Statement

## Principal's Message

Longfellow Middle School, a designated Arts and Technology Magnet School, is located in South Berkeley. The school has 460 students, which indicates we are the smallest of the three middle schools in Berkeley. Being a small middle school allows our staff to create an environment that is nurturing, with a strong academic focus that is infused with the arts. We offer unique experiences for our students that encourage parent/community partnerships such as The Music/Drama/ Arts Showcase, Grand Parent's Day, Annual Ski Trip, Eight Grade Yosemite Trip and our Monthly Student Assemblies, ie: Be an Ally Month Assembly. Longfellow is home to the Berkeley Unified School District's middle school Two-Way Immersion Program, a continuation of the elementary program to teach students in both English and Spanish. The native English and Spanish speakers in this program will gain proficiency in both languages. At lunchtime, students have two daily choices of made-to-order meals and an organic salad bar. Our nutrition education program includes cooking and gardening classes at each grade level.

## District Profile

We serve a city founded on the ideal of quality public education. Since 1868 the proud home to a great public university, Berkeley established California's first accredited high school, and in 1968 was the nation's first school district to desegregate without a court order. Our goal is always to give each of our children an equal opportunity to achieve the productive and fulfilled life that education brings.

With an enrollment of just over 9,000 students, Berkeley has 16 schools, from kindergarten through high school, plus extensive preschool and adult education programs. Its eleven elementary schools, with an average enrollment of about 379 , are the product of an enduring community commitment to providing small, nurturing environments for our youngest students. Each school's student body represents the full spectrum of Berkeley families, both culturally and economically

## District Mission Statement

The Mission of the Berkeley Unified School District is to enable and inspire our diverse student body to achieve academic excellence and make positive contributions to our world.

## Berkeley Unified School District's Vision

Our Students are curious and creative learners who succeed through personal initiative and sustained effort to reach high academic goals. They are critical thinkers who seek knowledge and possess technological competence and collaborative skills. Our students embrace diversity, act responsibly, and contribute to our community.

Our Educators believe that all students can meet or exceed rigorous academic standards. Teachers, staff, and administrators together form a rich professional learning community where all are supported to hone our professional craft and improve our effectiveness. Through the examination of our instructional practices and data, we adjust our teaching and operational systems in order to continuously improve. We are responsible in the stewardship of our fiscal resources and fair and equitable in their distribution.

Our Families and Community are integral to the success of our students and schools. Families are active, engaged and welcomed partners in their child's education, who give valued input and participate in making important decisions about our academic and enrichment programs. Our diverse community is passionate about equitable educational outcomes for all students. Our civic and community organizations partner with us to promote family engagement and the well-being and success of our students.

Our Schools are vital centers of community life enriched by the diversity of our city and welcoming to all families. Each classroom offers engaging and culturally relevant curriculum that builds on students' interests and abilities. Student needs, as identified by regular assessment, inform our teaching and guide appropriate and effective intervention services. We offer an enriched learning environment and a comprehensive system of supports to address the needs of the whole child.

Values and Beliefs of Berkeley Unified School District:

- Students are our priority.
- We take pride in our diversity.
- We hold high expectations for ourselves and our students.
- We treat each other with respect and act with integrity.

## Opportunities for Parental Involvement

We welcome parents to get involved in all aspects of our school, including assisting teachers, monitoring recess periods, chaperoning events, assisting with fund-raising, helping after school, or serving as a writing coach for our eighth grade students. We also welcome parents on our Berkeley Schools Excellence Project committee, which analyzes budgetary needs and makes funding recommendations. We are thankful for our active PTA, which has awarded teacher mini grants, sponsored winter and spring family nights and the spring fair, and much more.

To get involved in Longfellow's PTA, please contact the school office at (510) 644-6360.

## Our Community

Berkeley is a community as diverse as any in the nation-and our shared goal is to provide all students with the range of educational experiences that will inspire them to excel. Berkeley teachers are some of the state's experts in teaching classrooms full of students with different achievement levels, learning styles, native languages, and family resources. Our schools feature:

- a respected Early Literacy Program,
- a comprehensive arts and music education,
- enriched programs in science, English as a Second Language, and other disciplines,
- a Universal Learning Support System (ULSS) at each K-5 and 6-8 school designed to offer immediate support services to students and families in need,
- a nationally recognized healthy lunch program coupled with nutrition education for our students through hands-on science, gardening and cooking programs, and
- an extensive athletic program. Berkeley High School boasts more team sports than any public school west of the Mississippi.

## There is something for everyone here!

## Our Schools

With an enrollment of just over 9,000 students, Berkeley has 16 schools, from kindergarten through high school, plus extensive preschool and adult education programs. It's eleven elementary schools, with an average enrollment of about 379, are the product of an enduring community commitment to providing small, nurturing environments for our youngest students. Each school's student body represents the full spectrum of Berkeley families, both culturally and economically.

The Berkeley Community believes in well-maintained and safe schools and generously supports the maintenance and safety of our facilities. In 2010, a dedicated maintenance parcel tax, approved by $80 \%$ of the voters, and a new construction bond measure, approved by $77 \%$ of the voters, ensures that our district can adequately respond to growing enrollment and continue to offer safe and modernized places of learning for our students.

Over 98 percent of Berkeley teachers are qualified with full state-certified teaching credentials, and many have earned post-graduate degrees in their areas of expertise. There are ten national board certified teachers in our district, including the first special education teacher to receive a national board certification.

## About the SARC

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at http://www.cde.ca.gov/ta/ac/sa/.
- For additional information about the school, parents and community members should contact the school principal or the district office.

## School Climate

## School Safety Plan

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

The oldest buildings of Longfellow Middle School were constructed in 1922. Currently, the school campus covers 3.73 acres and includes 27 permanent classrooms, a staff work room, a library, a gym, 2 computer labs, a cafeteria, a theater, a READ 180 lab, and a cooking/gardening center. In the 2007-08 school year, the school renovated the Sixth Grade Building in 2008. The facility strongly supports teaching and learning through its ample classroom and recreation space.

The safety of students and staff is our primary concern. A variety of people visit the campus to volunteer in the classroom and participate in school events. During lunch, recesses, and before-and-after school, staff members, administrators, and safety officers supervise students and school grounds to ensure an orderly, safe environment. The school is always fully compliant with all rules, laws, and regulations concerning state earthquake standards and hazardous materials. Earthquake and fire drill are held quarterly, and intruder drills are held twice a year.

Safety procedures, including elements of our Comprehensive Safe School Plan, are reviewed with school and district staff at the start of each school year. The plan was last updated and reviewed with school staff in fall 2010.

## School Facilities

## School Facility Conditions and Planned Improvements

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
- Description of any planned or recently completed facility improvements
- The year and month in which the data were collected
- Description of any needed maintenance to ensure good repair

Year and month in which data were collected: January, 2012
The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained and in good repair. A work order process alerts district personnel of any maintenance needed to be performed and ensures that emergencies are given the highest priority.

Safety issues are the top priority for Maintenance and Operations. District maintenance supervisors inspect school sites continually and complete repairs in a timely manner. They use a work order process to ensure an efficient, prioritized repair process. The district maintenance staff has indicated that $100 \%$ of all toilets on school grounds are in working order.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

Date of Last Inspection: October 18, 2010

## School Facility Good Repair Status

* "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.
** "Vacant Teacher Positions" refer to positions not filled by a single designated teacher assigned to teach the entire course at the beginning of the school year or semester.

## Instructional Planning and Scheduling

## Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period. Questions that may be answered include:

- What are the primary/major areas of focus for staff development and specifically how were they selected? For example, was student achievement data used to determine the need for professional development in reading instruction?
- What are the methods by which professional development is delivered (e.g., after school workshops, conference attendance, individual mentoring, etc.)?
- How are teachers supported during implementation (e.g., through inclass coaching, teacher-principal meetings, student performance data reporting, etc.)?

Administrators and teachers take time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. During the last three school-years, each school in the Berkeley Unified School District dedicated 3 days annually for teacher and administrator professional development. Longfellow adopted a Restorative Justice Curriculum, and has designated 1 hour per month for ongoing staff development. The staff commits two hours per month to Universal Learning Support Strategy development with a focus on Culturally Relevant Instructional Practices. A math teacher-leader at the site participates in monthly District trainings, and supports math professional development and collaboration at the site. New teachers participate in a rigorous District BTSA program. Teacherinitiated professional development is supported through local funds earmarked for this purpose.

## Data and Access

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

## Core Academic Classes Taught by Highly Qualified Teachers

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE Improving Teacher and Principal Quality webpage at: http://www.cde.ca.gov/nclb/sr/tq/

| Percent of Classes In <br> Core Academic Subjects Taught by |  |  |
| :--- | :---: | :---: |

| District Percentages |  |  |
| All Schools | 100 | 0 |
| High-Poverty Schools | 100 | 0 |
| Low-Poverty Schools | 0 | 0 |

* High-poverty schools are defined as those schools with student eligibility of approximately 40 percent or more in the free and reduced price meals program. Low-poverty schools are those with student eligibility of approximately 25 percent or less in the free and reduced price meals program.

## Support Staff

* One Full-Time Equivalent (FTE) equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of fulltime.

## EdData Partnership Web Site

EdData is a partnership of the CDE, EdSource, and the Fiscal Crisis Management and Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## Curriculum and Instructional Materials

Quality, Currency, Availability of Textbooks and Instructional Materials
This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Year and month in which data were collected:
Williams legislation calls for the schools to have enough books in core classes for all students and asks districts to reveal whether those books are presenting information outlined in the California content standards. Textbook materials are adopted by the school board following a rotating adoption cycle for subject specific state adopted textbooks and instructional materials.

* Supplemental/Restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted.
** Basic/Unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education \& Per-pupil Spending webpage at http://www.cde.ca.gov/ds/fd/ec/. For information on teacher salaries for all districts in California, see the CDE Certificated Salaries \& Benefits webpage at http://www.cde.ca.gov/ds/fd/cs/. To look up expenditures and salaries for a specific school district, see the Ed-Data Web site at: http://www.ed-data.org.

## Types of Services Funded

This section provides specific information about the types of programs and services available at the school that support and assists students. For example, this narrative may include information about supplemental educational services related to the school's federal Program Improvement (PI) status.

Our school was awarded an After School Education and Safety Program state grant that supports before-school and afterschool enrichment programs and physical activities and a 21st Century Grant to fund our afterschool program. In addition, we have a grant from Alameda County for our health project. Local agencies, including the Longfellow PTA, In Dulci Jubilo, and the Berkeley Public Education Foundation, fund mini-grants for teachers.

## Student Performance

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- California Standards Tests (CSTs), which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- California Modified Assessment (CMA), an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I , and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- California Alternate Performance Assessment (CAPA), includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at http://star.cde.ca.gov.

## California Physical Fitness Test Results

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT webpage at http://www.cde.ca.gov/ta/tg/pf/.

## Accountability

## Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000 , with a statewide target of 800 . For detailed information about the API, see the CDE API webpage at http://www.cde.ca.gov/ta/ac/ap/.

## Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The statewide API rank ranges from 1 to 10 . A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

| API Rank | 2008 | 2009 | 2010 |
| :--- | :---: | :---: | :---: |
| Statewide | 7 | 6 | 7 |
| Similar Schools | 7 | 8 | 9 |

## API Growth by Student Group - 2011 Growth API Comparison

This table displays, by student group, the number of students included in the API and the 2011 Growth API at the school, LEA, and state level.

| Group | 2011 Growth API |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | School |  | LEA |  | State |  |

* "N/D" means that no data were available to the CDE or LEA to report. "B" means the school did not have a valid API Base and there is no Growth or target information. "C" means the school had significant demographic changes and there is no Growth or target information.

## Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) webpage at http://www.cde.ca.gov/ta/ac/ay/.

| Adequate Yearly Progress Overall and by Criteria |  |  |
| :--- | :---: | :---: |
| AYP Criteria | School | District |
| Made AYP Overall | No | No |
| Met Participation Rate: English-Language Arts | Yes | Yes |
| Met Participation Rate: Mathematics | Yes | Yes |
| Met Percent Proficient: English-Language Arts | No | No |
| Met Percent Proficient: Mathematics | No | No |
| Met API Criteria | Yes | Yes |
| Met Graduation Rate (if applicable) | N/A | Yes |

## Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: www.cde.ca.gov/ta/ac/ay/tidetermine.asp.
