"I am pansexual! I love and date people of all genders. I am transgender! I started transitioning in college and I've been really happy with how things are going.

"I love the kiddos. It warms my heart to see them growing into their identities at such a young age. Especially LGBTQ+ identities.

"I felt very alone in middle school and high school. It was so hard for me growing up without LGBTQ adults supporting me. I want to be that adult for the kiddos nowadays. I help out with Queer Student Union at King Middle School. Come by and hang out sometime. :)"
