

Join Your School Governance Council!

Would you like to:

- ❖ Understand and contribute to your school's plan for student achievement?
- ❖ Contribute to decisions about how state and local funds such as BSEP are used?

You can have a direct impact on education by joining the dynamic group of parents, teachers & staff on your School Governance Council (SGC).

The SGC focuses on:

- ❖ Setting high academic goals and developing programs to help all students achieve these goals
- ❖ Determining funding priorities & promoting innovative programs
- ❖ Supporting teachers, staff, students & families

If you are also interested in how some of these decisions are made district-wide, become one of your school's BSEP Planning & Oversight (P&O) Committee members!

Cut here and give to your teacher or principal if you would like to be contacted about the SGC. For additional information, call Valerie Tay at the BSEP office, 644-8717.
