

EDUCATION FOR EVERYONE

Jefferson Elementary—

If I could do something to make this world a better place, I would make sure everybody had an education. I heard about a girl named Malala who has been fighting for education for girls. I agree with her. But I think that EVERYBODY should get a good education.

Some people can't afford to go to school, which is just not right. Some people can't get a good education because they are homeless or poor. Other people are not allowed to go to school. In my dreams, everyone gets a good education and is happy. If all people could learn, they could feel happy, and if a person is happy, they know who they really are.

An education is important because it changes people's lives in a good way. Even if people dislike what they are learning in school, they always end up using that knowledge. Also, people make friendships in school and that forms fun, which is the key to the golden door of education.

Thank you a lot for reading my essay. I hope you know now what a good education is and why everyone should get one.
