Principal's Message

John Muir School, the smallest of eleven elementary schools in the Berkeley Unified School District, is the "second home" to an ethnically rich and diverse population of 285 transitional kindergarten through fifth grade students. Spanish, Korean, Lao, Mandarin, Italian, Arabic, and American Sign Language are among the numerous languages spoken by our families. A walk through our campus takes you to the natural creek and redwood grove restored by the John Muir community, past edible gardens managed by students, and through the landmark 1916 Tudor building symbolic of long-term positive values and the dignity of education.

The vision of John Muir School is to "achieve academic excellence, promote personal growth, and celebrate the joy and beauty of nature, community, diversity, and learning". At John Muir, students are the core of our work; therefore, every decision is made with their needs in mind and every action we take is based on our commitment to their success. We continually ask ourselves both formally and informally, "How can we help our students achieve their personal best?" Answering this question sharpens our focus, directs our priorities, and helps us establish a clear vision.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school at (510) 644-6410 or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2015-16)

Williams legislation calls for the schools to have enough books in core classes for all students and asks districts to reveal whether those books are presenting information outlined in the California content standards. Textbook materials are adopted by the school board following a rotating adoption cycle for subject specific state adopted textbooks and instructional materials.

School Facility Conditions and Planned Improvements (Most Recent Year)

The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained and in good repair. A work order process alerts district personnel of any maintenance needed to be performed and ensures that emergencies are given the highest priority.

Safety issues are the top priority for Maintenance and Operations. District maintenance supervisors inspect school sites continually and complete repairs in a timely manner. They use a work order process to ensure an efficient, prioritized repair process. The district maintenance staff has indicated that 100% of all toilets on school grounds are in working order.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement

Students thrive when there is an active and aligned partnership among parents, teachers, and the school. Parents recognize that ours is a school where they are welcomed and where their participation is constantly supported and encouraged. With this essential triangle in mind, we create multiple means by which parents can involve themselves in not only the success of their own children, but also in the success of the school as a whole. Our policy has three parts:

Home-School Connection

Our school communicates with parents through multiple channels – phone, internet, newsletters, conferences, and community forums. It is our policy to assure positive two-way communication by relaying messages in multiple languages and using voice and print media so that parents can receive and understand important information.

Parents as Teaching Partners

John Muir staff and faculty understand that parents are our students’ first teachers. Their informed participation in their children’s learning is crucial to our students’ success. With the support of our Parent Teacher Association, the school works closely with parents so that parents can understand how students are being taught to read, write, and compute. The school’s policy is to support parents in becoming allies and tutors both at home and at school.

Parents as Voting Members of the School Community

Our policy, aligned with State guidelines, is to involve parents as members of the School Site Council and other governance bodies as voting members. We actively recruit under-represented members of the school community to participate in governance processes and we share student performance data with all parents through regular community forums.

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates, pupil expulsion rates; and other local measures on the sense of safety.

School Safety Plan

John Muir Elementary School was constructed in 1952 and is comprised of three buildings. The main building is an interconnected, partial two-story reinforced concrete building with a partial basement. The facility strongly supports teaching and learning through its ample classroom, field, creek and playground space.

The safety of students and staff is our primary concern. A variety of people visit the campus to volunteer in the classroom and participate in school events. During lunch, recesses, and before-and-after school, staff members and the administrator supervise students and school grounds to ensure an orderly, safe environment. The school is always fully compliant with all rules, laws, and regulations concerning state earthquake standards and hazardous materials. Earthquake, lockdown or fire drill are held every month.

Safety procedures, including elements of our Comprehensive Safe School Plan, are reviewed with school and district staff at the start of each school year. The plan was last updated in the Spring of 2015.

Professional Development provided for Teachers

Administrators and teachers take time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. During the last three school-years, each school in the Berkeley Unified School District dedicated 3 days annually for teacher and administrator professional development. During 2014-15, 100% of all Berkeley K-5 teachers and site administrators who had not completed this training in 2014 participated in four-days of Common Core State Standards Professional Development for their K-5 classrooms. A site literacy coach provides ongoing support for teachers to improve literacy instruction to students. A math teacher-leader at the site participates in monthly District training's, and supports math professional development and collaboration at the site. New teachers participate in a rigorous District BTSA program. Teacher-initiated professional development is supported through local funds earmarked for this purpose.

Types of Services Funded

John Muir Elementary School students receive targeted instruction within the classroom and teachers have received GLAD training to improve their capacity to differentiate instruction. GATE students also receive mini-courses designed to provide enrichment and challenge at specified times throughout the school year. Special Education students with an Individual Education Plan can receive services in two programs currently at John Muir. The Resource Specialist Program (RSP) is for those students who have identified learning disabilities. The program emphasis for these students is to provide push-in services with some pull-out services. The school's program for the Deaf and Hard of Hearing provides specially trained teachers and interpreters that not only teach the core subjects, but also teach a full communication program in sign language. These students are mainstreamed into regular education classes, but their special needs require a smaller setting with on-going specialized attention and support.

Title I/Compensatory Education students also receive extra support. One full time and two part time intervention teachers work closely with students who need skill support in reading, writing, and mathematics. The full time teacher also works as a coach for regular classroom teachers and especially supports their efforts in Guided Reading. English Language Learners (ELL) are placed with teachers who have completed coursework that enables them to support language development. School Improvement (SIP) funds are also used to support under-performing students.

The Berkeley Unified School District benefits from a local tax initiative called the Berkeley Schools Excellence Project (BSEP). We used BSEP funds, along with state and federal funds to support improving student achievement, sending teachers to staff development, and purchasing instructional materials for classrooms.

Our PTA fund-raising efforts support many activities and supplies, including field trips, assemblies, family nights, after school enrichment scholarships, teachers' classroom requests, classroom library books, and more

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
