Parent & Educator Advisory Committee Meetings

Week of April 13, 2020

A Few of the Topics We'll Try to Cover:

Distance Learning Plan:	Overview, Grading, Supports
Zoom, Google Meet:	Current pause, evaluation, next steps
Ed Services:	Graduation, Admissions Process, Surveys
IEPs and Special Ed:	Plans to Continue Support
Student/Family Support:	Meals, Technology, Wellbeing
Community Partners:	Schools Fund, City of Berkeley, Public Health
Big Questions:	Closure Period

BUSD Distance Learning Plan

1. **Technology** Access for Students and Families
2. **Distance Learning Activity Sets** by Teacher Leader Teams
3. **Weekly Lessons and Activities** delivered by teachers
4. **Teacher Office Hours**
5. **Support for Special Education and English Learner Students**
6. **Monitoring** Student Participation in Distance Learning
7. **Grading, Course Credit, and Graduation**
8. **Professional Development** for Teachers

Ongoing Feedback from Students, Parents, and Educators

During the week of April 13 (our second week of district-wide distance learning), we plan to survey students, parents, and teachers about their initial experiences with distance learning. Please look for this communication.

Grading and Graduation

For the second semester, all students in Grades 6-12 will receive "Pass" or "No Pass" grades for their courses. This decision aligns with options permitted by UC, CSU, and other college organizations.

No student will be denied the opportunity to graduate on the basis of their second semester grade.

Video Conferencing & Zoom

Tuesday's "Zoombombing" incident took place even after the implementation of many of Zoom's security precautions, including:

- Migration to a BUSD "corporate" Zoom account
- Automatically enabling password protection, muting, and the "waiting room" feature
- Requiring active admission of each participant by the meeting host to the Zoom session

Video Conferencing & Zoom

This week's Zoombombing incident at the high school mirrored the widespread national reporting about Zoom security breaches. These incidents are impacting schools, universities, local government, businesses, and civic organizations. They represent a challenge to districts' obligation to provide a safe learning environment that is free from harassment and discrimination.

Video Conferencing & Zoom

- Zoom has been the subject of a recent FBI advisory, and several large districts, including New York City, have prohibited its use
- To date, BUSD has been working with Zoom to establish user authentication through Clever, a “single sign in” application used widely in BUSD at the elementary level, but without luck
- Google Meet employs a user authentication system to ensure that all participants are properly credentialed

Pressing Pause on Video Conferencing

- As of April 13, we have re-initiated online interactions between teachers and students using Google Meet
- BUSD is in direct contact with Zoom for technical support and closely studying other districts
- We note that some functionality available to educators in Zoom is lost with Google Meet

Chromebook Loans to Students

For families who do not have access to a device for their student:

1. Email chromebook@berkeley.net
2. Leave a message at (510) 644-8931
3. Fill out an e-form at berkeleyschools.net/connecting

Middle and High School Students:

Friday, April 10 3:30-5:30

Elementary School Students:

Monday, April 13 12:00-2:00

Pickup site:

Parking Lot next to the BUSD
Visual and Performing Arts Building,

Corner of Addison and Browning

Community Partners and Resources

- **Berkeley Public Schools Fund - Volunteers, donations**
- **Berkeley Schools Excellence Program - Music, Library, Tech**
- **Bay Area - Public Health and County Offices of Education**
- **Sister Districts - local, statewide, and national networks**
- **City of Berkeley - Public Health and Communications**
