Discussion Conversation:

2% of school youth are homeless which is higher than the city overall.

As we write the new plan we want to figure out which metrics we use to track the data.

No change for next 3 years will lead to deficit.

L48-49: 2020-21 SY expected a \$236K deficit 2020-21.

Table 3: Most of the investment of resources are in teachers. What if we focused on what's working in the classroom with students. Take a much more concentrated focus

Table 2: Narrow scope to focus on projects with a knowledge of other funding. No need to start from scratch. Review information from the past.

Table 1: Should be talking to school sites; however, no connection between PAC reps and school site councils. Do not know what's happening, need understanding of each program, where it is and how it's being measured. Want feedback/information from staff who are running program.

Good of the Order:

Aelaida Melgoza wants to see data by gender.

Observers Name: None present

Resource persons Names: Thom Reinhardt
