

Continuing Inter District Permit Information

If you no longer live in Berkeley and wish for your child to continue in a Berkeley Unified public school, you must obtain an inter district permit from your current district of residence.

The inter district permit is required for anyone living outside of Berkeley who wishes to attend or continue in a Berkeley public school. **The inter district permit must be approved by the home district. Even if the student has never attended a public school in that district,**

If the inter district permit is approved by BUSD an annual permit must be submitted by the end of the current school year.

Continuing students will not receive a school assignment for the following school year if a permit is not on file. The approval of the inter district permit is contingent on a student maintaining satisfactory standards of academic progress, behavior and attendance. The permit can be revoked at any time if these standards are not met.

Below is a short list of neighboring districts. We recommend you give your district a call in case they require any documentation.

District	Office	Address	Phone
