Introduction

The Mission of the Berkeley Unified School District (BUSD) is to enable and inspire our diverse student body to achieve academic excellence and make positive contributions to our world. The safety and well being of our students, families and staff are top priorities for BUSD as we work to fulfil this mission. This is especially true during efforts to open our schools for on-campus learning during the COVID-19 pandemic.

In response to the COVID-19 pandemic, BUSD pivoted to emergency distance learning in March 2020 and continued in distance learning for the remainder of the 2019-2020 school year. The 2020-2021 school year began with an enhanced distance learning program on August 17, 2020. On November 9, 2020, BUSD opened three elementary schools for a limited number of 8-student cohorts in order to deliver targeted support to students most in need. Berkeley High School also began to offer athletic conditioning to student athlete cohorts in November.

The BUSD Board of Education initially approved a target date of January 13, 2021 for the reopening of Early Childhood Education and Elementary School grades TK - 2 in a hybrid learning model, and a January 20, 2021 target date for reopening Elementary School grades 3-5 in a hybrid mode, pending the ongoing decline in COVID-19 transmission and the completion of labor negotiations. As of the submission of this Plan on January 4, 2021, the ongoing surge of COVID-19 cases in Alameda County has led to the issuance of a Stay at Home Order until January 7 and has moved the County back to the "Purple - Widespread" Tier. Alameda County Public Health Department and City of Berkeley Health Department Orders do not currently allow BUSD schools to reopen for a hybrid learning model at this Tier. Negotiations for the hybrid learning model continue with the District's labor partners, including the Berkeley Federation of Teachers (BFT). In a letter to the BUSD community on December 18, 2020, Superintendent Stephens acknowledged that under these conditions, the Board of Education's January target reopening dates for ECE and elementary schools are not feasible.

On December 30, 2020, Governor Newsom announced California's [Safe Schools for All Plan](#) which requests \$2 billion as a mid-year budget addition to help get students back into classrooms, with an emphasis on grades TK - 2. The plan describes the availability of testing and PPE resources and prioritizes educators to receive the COVID-19 vaccine.

BUSD remains committed to reopening our schools when it is safe and allowable to do so. This COVID-19 Reopening Plan details to the Alameda County Department of Public Health and the Alameda County Office of Education the risk mitigation protocols in place for reopening BUSD campuses for in-person instruction under a hybrid learning model.

PUBLIC SCHOOLS
Berkeley Unified School District

Contact Information and Reopening Plan Specifics

District: Berkeley Unified School District
2020 Bonar Street
Berkeley, CA 94702
www.berkeleyschools.net
(510) 644-6510

Superintendent: Brent Stephens
superintendent@berkeley.net

School type: Public School District

Person completing this application: Trish McDermott, PIO
trishmcdermott@berkeley.net
(510) 631-1463

Date of Submission: 01/05/2021

| BUSD COVID LIAISONS | |
|---|---|
| Amanda Frey, District Nurse amandafrey@berkeley.net (510) 506-1282 | Julia Ingoldsby, District Nurse juliaingoldsby@berkeley.net (510) 506-1202 |

Dates of Proposed Reopening

As of the date of this submission, Alameda County remains at the "Purple-Widespread" State COVID-19 Tier and school reopening is not permitted. BUSD will determine campus reopening dates as more is known about community transmission conditions.

Pre-K: TBD

Elementary Students (Grades K-2): TBD

Elementary Students (Grades 3-5): TBD

Middle School Students:(Grades 6-8): TBD

High School Students (Grades 9 - 12): TBD

PUBLIC SCHOOLS
Berkeley Unified School District

Health Order Guidance

BUSD school leaders have familiarized themselves with the Alameda County Public Health Department (ACPHD) and the Alameda County Office of Education (ACOE) guidance document. Additionally, the District remains current on all health orders and guidance information from the following agencies:

- California Department of Education
- California Department of Public Health
- Alameda County Public Health Department
- Alameda County Office of Education
- Berkeley Public Health Department

Berkeley Unified School Information

Because we do not have a finalized hybrid learning model, BUSD has yet to determine the number of students likely to return to our school campuses for in-person learning during the remainder of the 2021-2021 school year. Student enrollment and staff numbers reported below are the total number of students and staff associated with each school. The actual number of students and staff returning to each school will be reported at a future date.

School Reopening Plan

The BUSD COVID-19 School Reopening Plan is posted on the BUSD website.

The District has entered into a Memoranda of Understanding with the Berkeley Federation of Teachers (BFT) and its other labor partners that addresses the terms for health and safety protocols in this plan in preparation for resuming in-person teaching or services at sites.

Cleaning and Disinfecting

The BUSD custodial staff has been trained on facilities cleaning protocols consistent with guidelines established by the CDC. Classrooms, restrooms and all workspaces will be disinfected daily, including sanitizing high-touch and shared surfaces such as door handles, light switches, handrails, faucets, telephones/computers/electronics, pencil sharpeners, metal surfaces, as well as desk, table and chair surfaces. Schools will also be routinely “deep cleaned” to provide for a high level of cleanliness. BUSD will ensure its facilities (school site or central office) have the necessary District-funded supplies for preventative sanitation measures.

USE OF SHARED ITEMS

The use of shared items will be minimized. High-touch shared items will be disinfected daily. Cohorts will have a designated recess area and dedicated sports equipment.

CASES

In the event of a case of COVID-19 in a cohort, the classroom and other rooms used by the cohort will be closed for 24 hours and then receive a thorough cleaning. In other situations where a case was on campus during their infectious period, any rooms used by the case will be closed for 24 hours and then receive a thorough cleaning.

ELECTROSTATIC CLEANERS

Custodial and transportation staff will use electrostatic cleaners which spray an electrostatically charged mist that clings to surfaces to be cleaned and use a sanitizing agent to disinfect the area. Electrostatic cleaners enhance infection control and the spread of viruses, including COVID-19.

SCHOOL BUSES

School buses will be disinfected twice daily, once after the morning run and again after the afternoon run. At each cleaning, busses will first be cleaned with an electrostatic sprayer, and then manually. Cleaning is designed to disinfect all areas, to include high-touch surfaces.

Ventilation and Outdoor Space

VENTILATION

The District will ensure ventilation systems operate properly and increase fresh outdoor air circulation as much as possible. All working spaces shall use any combination of mechanical ventilation, natural ventilation, and HEPA air purifiers, as the individual room characteristics dictate, to provide adequate air exchanges.

The District shall ensure all HVAC systems operate on the mode which delivers the most frequent air exchanges per hour, including disabling demand-controlled ventilation, and open outdoor air dampers to the maximum extent as indoor and outdoor conditions safely permit. Air filters shall be MERV-13 where systems can accommodate, and changed at the recommended intervals. Portables and/or other rooms without HVAC or means of natural ventilation shall be equipped with low noise HEPA air filters with a large enough capacity and flow rate for the square footage of the room.

ISOLATION ROOMS

All areas used as the isolation space/room of individuals presenting COVID-19 symptoms, if indoors, shall be equipped with adequate ventilation with the use of minimal recirculated air. MERV-13 air filters and/or HEPA filters shall be utilized. The District shall make every effort to utilize unassigned rooms that meet the highest minimum standards for ventilation and air circulation when used as an isolation space/room.

POOR AIR QUALITY INDEX (AQI)

If “Unhealthy” (AQI of 151 or higher) air quality prevents windows from being open, ‘in-person’ classes will be cancelled.

OUTDOOR SPACE

The use of outside spaces is one of many health practices that can be combined to reduce the risk of COVID-19. As the weather permits, teachers will maximize their use of outside time. This may look like additional learning activities that take place outside, snacks and lunch outside, and recreation time.

Cohorting

At the Pre-K and Elementary levels, students will be kept in small stable groups with fixed membership. These cohorts will stay together for all activities including instruction, snack, lunch and recess. Contact with other cohorts or individuals outside of the cohort will be minimized and avoided when possible. When cohorting is not practicable for secondary school students, face coverings and limiting group gatherings are a higher priority.

Physical Distancing

The District will maintain physical distancing standards in school facilities and vehicles, including but not limited to implementing plans incorporating the following components.

STUDENTS AND STAFF

The District will maintain appropriate changes to the physical layout and modify practices to maintain physical distancing as practicable. Changes include:

- One-way hallways to the extent possible.
- Sufficient points of access to avoid larger gatherings to the extent practicable.
- Limits on the number of students in classrooms or other spaces that can be accommodated while maintaining six feet of distance between individuals. The number of students allowed in a room will reflect the actual size of usable space in the room.
- Dedicated space(s) to safely isolate students who feel ill.
- Plexiglass barriers in school offices.
- Limiting the number of people in all campus spaces to the number that can be reasonably accommodated while maintaining a minimum of six feet of distance between individuals.
- Employees shall not socially congregate in any workspace, including but not limited to break rooms, common lunch areas, hallways, restrooms and other workspaces. No social activities shall take place in any workspaces in order to protect the health and safety of all and prevent COVID-19 spread. No potlucks or other food sharing will be permitted on campus.
- In-person meetings shall be virtual to the extent possible. In the event that a meeting occurs in person, social distancing and the use of Essential Protective Equipment (EPE) will be required.

VISITOR RESTRICTIONS

To help prevent the spread of COVID-19, no visitors will be permitted on the school site or in a central office facility unless they are considered an essential visitor.

- No adults other than District staff will be allowed in classrooms, unless it is an

emergency situation.

- An “Essential Visitor” is defined as someone who has business at the site that cannot be conducted remotely.
- All efforts will be made to keep any deliveries contact free.
- All visitors will submit to self-attestation screening prior to entering the campus buildings.
- School volunteers will be limited to tasks directly related to the implementation of safety procedures and shall not have access to classrooms.

Entrance, Egress, and Movement Within Our Schools

BUS PROTOCOLS

Parents/guardians will need to wait with students at their bus stop. Students riding to school on a bus will be required to wear face coverings and socially distance while on the bus, loading, unloading, and waiting to board. Bus capacity will be limited in order to comply with social distancing protocols and social distancing signage will be posted on bus seats. Bus drivers will have face coverings for students who don't bring their own.

ENTERING AND EXITING SCHOOL

Students will enter and exit schools through designated entrances. Some schools will have more than one entrance. Ground area around school entrances will be marked with social distancing reminders. During arrival and departure times, students will be reminded to limit contacts with other students and staff. Wall and floor signs and hand sanitizer stations will remind everyone to engage in behaviors that help limit the spread of COVID-19.

RISK MITIGATION SIGNS

Signage throughout school campuses will remind students, parents/guardians and staff about key risk mitigation behaviors, including hand washing, face coverings, social distancing, and staying home when ill with any COVID-19 symptom. Social distancing floor signs will help students know where to stand when lining up for recess, picking up lunch, moving through hallways, and while working in the classroom.

ONE-WAY PATH OF TRAVEL

Most halls will be designated “one way” only. This will limit crowding and cohort mixing. In these instances, halls will be marked with clear signs directing students, visitors and staff about the correct direction.

Face Coverings and Essential Protective Equipment

FACE COVERINGS

The District requires the use of face coverings for all persons who enter District facilities. All students age 5 and up, any visitors, and all staff will be required to wear cloth face coverings that cover their mouth and nose while on any school campus or facility. Pre-K students will be strongly encouraged to wear a face covering while indoors. Any mask that incorporates a one-way valve designed to facilitate easy exhaling allows droplets to be released from the mask and is not considered an appropriate face covering.

There is an exemption for students and staff unable to wear a face covering due to special circumstances such as a documented developmental or health diagnosis that limits their ability to wear a face covering. In these cases, face shields are permissible.

While students are encouraged to bring their own face coverings to school, all schools are equipped to provide masks when necessary.

ESSENTIAL PROTECTIVE EQUIPMENT

The District shall provide all staff any District-funded Essential Protective Equipment (EPE) necessary to complete their work assignment. Appropriate EPE will be provided to students when needed. The District shall provide sufficient protective equipment to comply with CDPH guidance for staff appropriate for each classification or duty, relevant to Cal/OSHA requirements, including but not limited to as follows:

- For all staff: Face coverings (as defined by Public Health).
- Additionally, for staff working with students five years of age and under and mod/severe special education students in person, and for any staff member upon request: face shields, disposable gloves, and gowns will be provided. Physical barriers and bite prevention gear will be provided when appropriate.
- Respiratory protection is important for staff caring for individuals who present COVID-19 like symptoms and are in an isolation space pending travel home. Such staff shall be provided N95 respirator masks without valves. Disposable face masks, face shields, disposable gloves, gowns, and physical barriers shall be provided. A portable air purifier shall be provided for these isolation locations.
- Face shields shall be provided to all staff requesting them.
- The District has purchased a sufficient number of no-touch thermal scan thermometers for symptom screenings.

Health Screenings for Students and Staff

STAFF SCREENING

The District requires “Self Attestation” of in-person staff daily, encouraging staff to self-screen before leaving for work (check temperature to ensure temperatures below 100 degrees Fahrenheit, check for symptoms outlined by public health officials) and to stay home if they have tested positive for COVID-19, have symptoms consistent with COVID-19 or if they have had close contact with a person diagnosed with COVID-19. Staff who develop symptoms during the work day will be immediately sent home.

In-person staff will be required to respond to an electronic screening questionnaire that is based on CDC recognized symptoms and exposure, including but not limited to:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

STUDENT SCREENING

The District will instruct parents/guardians to screen students before leaving for school (check temperature to ensure temperatures below 100 degrees Fahrenheit, observe for symptoms outlined by public health officials) and to keep students at home if they have tested positive for COVID-19, have symptoms consistent with COVID-19, or if they have had close contact with a person diagnosed with COVID-19.

Parents/Guardians shall be asked to respond to an electronic screening questionnaire that is based on CDC recognized symptoms and exposure. Alternatively, for students with incomplete electronic questionnaires, a symptom screening checkpoint will be set up at school entrances. Students will be screened for symptoms including but not limited to:

- Fever or chills
- Cough

- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If a student is symptomatic for COVID-19 while entering campus or during the school day, the student will be separated from others right away and isolated in an area through which others do not enter or pass. The student's parent/guardian will be notified immediately that the student must return home. The district will ensure that office staff receive and are trained on these guidelines for symptoms occurring on a school campus.

Healthy Hygiene Practices

Students and staff will be encouraged to follow all healthy hygiene practices including to wash hands frequently, use hand sanitizer when soap and water are not available, and to sneeze and cough into their arms. Signage around schools will reinforce this messaging and handwashing shall be prompted and incorporated into routines.

HAND SANITIZATION

Students and staff will be encouraged to wash hands with soap and water, and to use hand sanitizer frequently. The following will be made available:

- Every room with a sink shall be stocked with soap, hand sanitizer, and paper towels.
- Every classroom shall be provided hand sanitizer.
- Non-classroom workspaces shall be provided hand sanitizer.
- Hand sanitizer stations shall be provided at each ingress and egress point.
- Soap, hand sanitizer and paper towel supplies will be actively monitored by all staff in any space where students or staff are working.
- Supplies will be promptly replenished upon request.

Identification and Tracing of Contacts

WORKPLACE CONTACT TRACING

All schools have designated staff at their school sites trained to support contact tracing and be available to receive notification from public health. Upon notification that an employee or student has been infected with COVID-19, the District shall work with public health officials and assist with workplace contact tracing and any required notifications.

- Staff will cooperate with the District in any necessary public health actions, such as contact tracing of infected individuals. This information will be used solely for contact tracing purposes. All staff are expected to comply with contact tracing.
- The district has coordinated with the City of Berkeley Health Department to identify and train staff to perform contact tracing. They will appropriately report cases and share case contact information with the City of Berkeley Health Department.

ACTIONS WHEN THERE IS A CONFIRMED CASE

Parents/guardians or staff must immediately report a COVID-19 case to their school's principal and should also fill out their daily Frontline Health Portal screening. Principals or other designated and trained staff will contact the District's COVID-19 Liaison and the City of Berkeley Public Health department and immediately coordinate with the employee or parent/guardian to gather information in order to determine:

- When the case (the person with COVID-19) was on campus/at a BUSD facility.
- When the infectious period began.
- Who in the school community was a close contact with the case and must be notified to quarantine and consider testing.
- What safety protocols were practiced in the classroom, on the school campus, and on the bus.
- Whether a cohort must close and quarantine for 14 days.

BERKELEY UNIFIED SCHOOL DISTRICT CONFIDENTIAL COVID-19 RESPONSE PLAN

WHEN CASES ARE SUSPECTED OR REPORTED AT SCHOOL

| SYMPTOMS | CLOSE CONTACT | POSITIVE CASE |
|--|--|--|
| STAY HOME/ GO HOME | STAY HOME/ GO HOME | STAY HOME/ GO HOME |
| ISOLATE 10 DAYS FROM SYMPTOM ONSET | QUARANTINE 14 DAYS FROM LAST EXPOSURE TO CASE | ISOLATE 10 DAYS FROM SYMPTOM ONSET OR TEST DATE (IF NO SYMPTOMS) |
| RECOMMEND TESTING | RECOMMEND TESTING | CONFIDENTIAL COMMUNICATION SENT TO SCHOOL COMMUNITY |
| COHORT & SCHOOL REMAIN OPEN | COHORT & SCHOOL REMAIN OPEN | 1. COHORT CLOSES; 14 DAYS 2. SCHOOL REMAINS OPEN 3. CONTACT TRACING |
| RETURN TO SCHOOL AFTER 10 DAYS <u>OR</u> MEDICAL NOTE* - AND - SYMPTOMS HAVE IMPROVED - AND - NO FEVER FOR 24 HOURS** | IF NEGATIVE TEST, OR NO TEST, RETURN TO SCHOOL 14 DAYS AFTER LAST EXPOSURE TO CONTACT | RETURN TO SCHOOL 1. AFTER 10 DAYS - AND - 2. SYMPTOMS HAVE IMPROVED - AND - 3. NO FEVER FOR 24 HOURS** |

*Medical note must indicate symptoms are not related to COVID 19

**Must be fever-free without using any fever-reducing medicine

Emerging Stronger. Together.

Staff Training and Family Education

STAFF TRAINING

To help prevent the spread of COVID-19, prior to any school or central office reopening, the District will train its employees in appropriate measures (public health measures, hygiene, sanitation, etc.) to prevent the spread of the virus. This includes training on proper EPE usage, social distancing protocols, and handwashing/hand sanitizing procedures. Staff will view training videos that cover Cal/OSHA general guidelines for COVID-19.

Principals and department managers have received COVID-19 Reporting and Contact Tracing Training, and staff departments including Transportation, Facilities and Nutrition Services received specialized risk mitigation training.

STUDENT TRAINING - FAMILY EDUCATION

BUSD parents and guardians will be asked to have their students view a series of videos covering COVID-19 safety practices while at school. Safety practices will be discussed in the classrooms and reinforced throughout the school day. Parents and guardians will be encouraged to read this plan and other school-specific campus safety information before students return to a campus.

Staff Testing

In compliance with the City of Berkeley Health Order, the District will be required to provide at least monthly surveillance testing for all employees who are working in-person.

BUSD is providing COVID-19 testing every two weeks to all staff working in-person at a District school or facility. Testing occurs at BUSD facilities and is proctored by District nurses. All staff providing in-person instruction or service will receive a COVID-19 test prior to returning to their in-person position.

Triggers for Switching to Distance Learning

The District will comply with the state, county, and/or city public health orders regarding classroom, site, and district closures based on positive test results or local conditions.

In the event that a student or staff member is reported to be positive for COVID-19 and was in the cohort during their infectious period, the entire cohort will be quarantined--students and staff--and participate in distance learning only during the quarantine period.

Communications Plans

RISK MITIGATION AND SAFETY COMMUNICATIONS

The District will provide staff with clear and timely communications, policies, and procedures regarding health and safety guidelines that are consistent for all school sites and central office facilities.

Families will receive updates from Principals and/or the District Office, and information relative to COVID-19 risk mitigation and campus reopening will be posted to the [BUSD Campus Reopening website page](#).

COVID-19 CASE COMMUNICATION - STUDENT/FAMILY

The parents/guardians of all students engaged in on-campus learning will be notified of a confirmed case that was on their student's campus during the case's infectious period.

If the case was in a cohort, the cohort will receive additional COVID-19 guidance including quarantine information from the City of Berkeley Health Department, a date when the student can return to campus, and a recommendation to reach out to the student's healthcare provider to learn about testing. If a student is determined to be a close contact with a case, the parent/guardian will receive similar information.

COVID-19 CASE COMMUNICATION - STAFF

The District will notify staff and union leadership of possible exposure to COVID-19 within one business day, as required by AB685.

- Per AB685, the District will provide a written notice to all employees who were at the same worksite as the “qualifying individual” (the potentially exposed employee) within one business day, except on Fridays or prior to Holidays and Breaks, which will be 24 hours, that they may have been exposed through close contact (within 6 feet and for a period of 15 minutes or longer) to COVID-19. An employee is considered as “qualifying” if they received a lab-confirmed positive test, received a positive diagnosis from a licensed health care provider, or have received a COVID-19-related order to isolate provided by a public health official.
- After December 31, 2020, any staff member who must quarantine due to workplace exposure and cannot work remotely will be provided with paid leave that does not use the employee’s accrued leave as needed to cover their illness and/or quarantine time period as defined by public health or medical professionals. They are also eligible to make a claim for worker’s compensation benefits which may include up to 60 paid days.

If a staff member must quarantine, BUSD will provide a date for returning to work and quarantine guidance from the City of Berkeley Public Health Department. The staff member will be encouraged to reach out to their healthcare provider for information about testing.

CONFIDENTIALITY

COVID response is confidential and consistent with privacy requirements. This means no student or staff names or identifying information will be shared in case notifications made to staff or families.

COVID-19 CASE DASHBOARD

All COVID-19 cases that were present on a school campus or at a District facility during the infectious period will be added to the [BUSD Confirmed On-Site COVID-19 Case Dashboard](#).

Conclusion

This plan meets all the requirements outlined in the [ACOE and ACPHD School Reopening Checklist](#).
