Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program
Comprehensive Support and Improvement
Targeted Support and Improvement

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Longfellow is a comprehensive middle school, that works to meet the needs of a population that is academically, financially, and culturally diverse. This plan is intended to identify and support the tracking of specific interventions, strategies, schoolwide programs, human and instructional resources to ensure the diverse needs of Longfellow students are being met in an equitable and data informed way.

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Longfellow ran an extended listening campaign to gain information and priorities from its entire community.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

The 2020-21 focused on distance learning. The previous school year focused on the implementing key compatible components of the AVID Framework: Focused Note-taking, Increased Intervention & Support Classes, Increased collaboration, and PBIS via shared school values (R.E.A.L.). We were able to complete several walkthroughs to see that several basic Tier 1 practices were implemented: Expectations posted, teachers completing Advisory lessons and using expected practices, with a 50% participation rate for teachers. Several components for a safer and more rigorous learning environment were recognized. Regular, often interrupted administrative walkthroughs in the classrooms, identified several key areas of improvement needed to support student and adult learning: Unified essential classroom practices, Increased teacher collaboration time allowing for reflection and planning, the use of critical strategic practices that speak directly to student needs (closing the achievement gap, integrated & designated English Language Development strategies) and a structured inquiry process that is rooted in quality PLC data informed practices that will allow for regularly reflection and revision.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Longfellow offers several formative and summative assessments to help guide our actions in improving student achievement:

*Renaissance STAR Assessment: A standardized assessment that is used as not only a baseline assessment, but also as a formative assessment that provides teachers with detailed specifics around student performances, easily disaggregated by grade level and individual teacher. This test is offered three times a year.

*Scholastic Reading Inventory: A standardized assessment targeted at incoming 6th graders and those already identified for Tier II reading intervention. For incoming 6th graders, this assessment allows for opportune times the identification of students struggling with the primary components of reading. This test is currently offered three times a year, only to key students.

*Key identified unit assessments: These assessments can be directly from the curriculum or teacher/team created in Illuminate to offer intermittent check points for areas of students and teacher success or improvement.

*Federally mandated assessments for Individualized Education Plans: These academic and cognitive assessments are required for students receiving special education services. They are highly utilized to help identify areas of student need, growth, and as key entry points for the differentiation of academic work.

*SBA: Annual state mandated summative assessment on ELA, Math, and Science.

*Alternative Assessments and/or Performances of Understanding: These are site based assessments that offer students with a variety of learning styles and differences to display their understanding of content in ways beyond standardized testing. These assessments allow for hands on, verbal, visual, auditory, kinesthetic, and project based forms of assessments that are aligned with the standards.

Every content area at Longfellow is utilizing curriculum and grading that is aligned with Common Core Standards and the NGSS. A heavy use of standardized assessments to primarily identify students for support and intervention classes has been the practice. While this techniques has been useful and shown growth, especially in our mathematics program:

See Appendix A (Fall & Winter STAR Math)

See Appendix B (Fall & Winter STAR Reading)

Even though we're able to identify small but important areas of growth, utilizing this data to inform our practice was has not been a schoolwide effort. The Leadership team has identified key data points and checkpoints for Professional Learning Communities align themselves around and begin to graph repeatable successful actions.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Longfellow utilizes a very structured process for maintaining and using data to inform instruction. Using the identified measures, each content/subject PLC uses data to inform our teaching practices. Each PLC is required to create a Theory of Action that has identified the current standing of students based on our assessments. Once the assessments are examined, the team identifies 2-3 goals, data points to be used, and identified strategies to be used. As the team progress through the year, there are at least 7 major check points: (1) Previous years' SBA results; (2) STAR baseline data from current years beginning of the year assessments; (3) Identified unit assessments (can be curriculum-based, teacher created on Illuminate, or project based); (4) Mid-year STAR; (5) Identified unit assessments/SBAC Interim Assessments; (6) STAR end of the year assessments; (7) SBA Assessment.

Teams will convene to examine data results through a consistent cycle of inquiry. These inquiry cycles will have a 9 week cycle. Teachers are expected to bring the most current data and identify strategies that worked and those that didn't. The team will discuss and make adjustments as necessary. The teams will use standards based rubrics, curriculum based pacing suggestions, and proven instructional strategies to support student growth.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

All Longfellow teachers will have had access to instructional materials and collaboration/planning time to develop 1-2 content units using data-based instruction, instructional strategies that are relevant to the needs of our student population, and the understanding of the PLC process.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Staff development will consist of PLC, PBIS, and CRT practices.

PLC (Professional Learning Communities): This area of staff development consists of training staff on how to examine and utilize data effectively to track student and team progress, collaborate as a team around student learning, understand and utilize curriculum with fidelity.

PBIS (Positive Behavior Intervention & Support): This area of staff development consists of deepening the practices of Tier 1 PBIS practices found in the 8 classroom essentials.

CRT (Culturally Responsive Training): Training staff for the intentional use of strategies specific to language and culturally relevant teaching strategies. Staff will complete items such as book studies, Direct planning incorporated into PD time, and an organized walkthrough system that provides timely feedback.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Our Leadership Team consistent of content area experts and coaches, team leaders, educational specialists, the responsive to intervention facilitator, and the restorative justice coordinator. These members help to message direct concerns and needs of teachers and students as well as act as avenues of support for struggling teachers. This team also supports in the design of the instructional practices of the school as well as the roll out of our professional development.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Every effort is made to incorporate shared planning time with content area partners during the day. A large effort has been made to ensure that most teachers have at least one planning partner in their content area. Teachers are expected to share at least one day of shared prep time in order to collaborate and plan together. Each Weds, teachers are also offered a variety of collaborative opportunities that range from Grade level team meetings, choice collaborations, to trainings specific to schoolwide needs. Teacher hourly has been set aside to truly secure quality collaboration and inquiry cycle time.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

All curriculum and adopted materials are aligned with the state standards and included a shared rubric.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Students receive daily instruction in all subjects, which satisfies the required state instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

With established district and state assessments, teachers are required to sequence their instructional program as recommended by the district and state.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

All of our students have the necessary/required instructional materials. All instructional materials meet the common core requirements.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Every teacher is using the adopted middle school curriculum. Additionally, our students read approved books, as part of our Accelerated Reading Program.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

The students have access to additional support in the regular class setting, in small groups in nearby classrooms, and support classes. We also offer intervention classes for students in need a more intense, direct form of study. Support classes are also offered before and after school along with teacher led tutoring sessions, a teacher requirement to post office hours, access to online tutoring support. We also engage in multiple community partnerships to offer our students a variety of experiences intended to support their learning: Writers Coaches, Be A Scientist, a variety of tutoring and mentoring programs, the X-Men boys group and the BUSD African American Success Program (UMOJA).

Evidence-based educational practices to raise student achievement

The Leadership Team and site administrators ensure that effective instructional strategies are happening in the classrooms at all times. This is done by regularly scheduled walkthroughs that based around the site goal and PLC goals. PLC's are expected to keep track of the data around their students and the strategic actions they are using to support them. This data is expected to be reviewed every 6-9 weeks. All PLC's will keep a Theory of Action, that helps all stay on track. The walkthroughs will maintain regular data and provide time feedback.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Tutoring, Parent Education, Computer Access, EDP Scholarships, Community Services and Counseling, Online Resources, Community Partnerships, and Parent Workshops throughout the school year. The school is also creating a safe space for parents to have a space that is welcoming and provides them with the variety of resources needed to be successful partners (parenting books in several languages, community activities, support on learning about school practices).

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Longfellow has a wealth of opportunities for engagement for all of its stakeholders: Large variety of intramural sports games, Back to School Night, Open Houses, Volunteer Opportunities, Art Shows, Music Concerts, parent leadership on committees among many other things.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Site funds are allocated to best serve all students, however expenditures place high priority on those that are underperforming, with a specific emphasis on improving teacher practice to avoid create a stigma around intervention and support.

Fiscal support (EPC)

We have a variety of fiscal support options: Our allocated base funding, Berkeley Public Schools Fund, LCAP, TITLE I, PTA donations and grants when needed and various small budgetary supports from district based departments.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Both the school Leadership Team and the School Site Council were included in the review of the SPSA expectations, test scores, programmatic ideations and struggles and asked for input or understanding of prior history or actions taken. The Leadership team completed an in depth review/evaluation of the prior SPSA, identifying what worked and what didn't and what the next steps should be. Both teams completed a final review with suggested revisions.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

There are a variety of resource inequities that effect Longfellow Middle School. Particular as a school whose demographics don't directly reflect and/or align with those of the larger district demographics. Those that have the largest effect on our school are: PTA Resources, High Concentration of ASI 3+ students, and Mismatched FTE Allocations.

PTA Resources: While Longfellow has an incredibly interested and supportive system of engaged parents, it has a disproportionately lower number of mid/high income level families in comparison to its sister middle schools in BUSD. This disproportionality impacts Longfellow's capacity to supplement basic school services with donated dollars. If these mid/high income families donate at the average giving level as their mid/high income peers at our sister schools (School A: \$231 and School B: \$311), the total Longfellow PTA budget and its per pupil charitable financial resources would still be significantly less than the two other schools. In order for the Longfellow PTA to be able to provide the same per pupil backstop of resources, each of our mid/high income families would need to contribute almost twice as much as their peers at School A and over \$100 more than their School B peers.

High Concentration of ASI 3+ students: Using the BUSD Academic Support Index, an index that identifies things that can effect student learning and provides it with a correlating score, we find that Longfellow is in a unique situation. Of all of BUSD students, approximately 67% have an ASI 2 or less, meaning these students come to school with "tailwinds" that can make success in school easier. The other 33% of all BUSD students are in the category of ASI 3+; meaning they face "headwinds" and will most likely need intervention and other supports to be successful in school. At Longfellow, the inverse to the entire BUSD district is true with approximately 68% of our students facing ASI 3+ headwinds. This means the majority of our students are in need of Tier 2 support or greater as defined by the Response to Intervention (RTI) rubric. In addition, most of our students are English Language Learners, foster youth, or from low income families. This high concentration of need requires a high concentration of resources which has not historically followed Longfellow's student population.

Grade 7	168	165	168
Grade 8	165	167	165
Total Enrollment	498	497	503

Conclusions based on this data:

1. Nearly 70% of our student population is students of color. Since students of color have historically struggled in many schools, our strategic efforts should be geared towards the needs of these students.
2. Nearly 20% of our students are white, this is a very large disproportionality, we need to ensure we find ways to incorporate this student voice that is equitable to their needs and those of the students around them.
3. The percentage and demographics of our students has not changed much over the years, so we can easily plan for what's coming.

Reclassified Fluent English Proficient (RFEP)	15	0	5	21.7%	0.0%	5.6%

Conclusions based on this data:

1. 18% of our students are EL after two years, targeted EL support is needed
2. 10% decrease in RFEP students between 17-18 to 19-20, LF students struggling to meet the new testing requirements, particularly SBA requirement
3. 21% of students FEP need extended support, likely integrated in teacher practices.

Conclusions based on this data:

1. Average of 38% of students entering 6th grade not meeting standards, . Average of a 5% drop in achievement from 7th to 8th grade, . Meaning actions needed to provide intense support for incoming students and stronger, more experienced teachers in 7th grade maintain student growth.
2. Targeted Designated Reading Supports for students below standards and Integrated Strategies for students at or near meeting standards.
3. Longfellow students maintain untapped strengths in Writing (45%), Listening (63%), and Research/Inquiry (46%) at or near standard

Conclusions based on this data:

1. Concepts and Procedures are the greatest struggle for our students, indicating a need for increased supports for these areas. 43% Below Standard Schoolwide
2. Problem solving & Modeling (43% at or near standard; 40% below standard) and Communicating Reasoning (48% at or near standard) show key access points for pushing achievement with hands on activities and/or alternative forms of showing understanding.
3. Consistent but incremental growth between grade levels, suggests a need for a continuation or amplification of specific practices and strategies that support growth. Maybe more support in 6th grade since students come in with the highest deficit in 6th grade

Conclusions based on this data:

1. 33% of our students are at Beginning Reading level, Targeted support for those groups
2. Vast majority of our students are at Somewhat/Moderately in Listening, Writing, calls for small directed and integrated action for those groups: Reading/Writing workshop, CM strategies throughout classrooms.

3. Strength in Speaking, 89% well developed, incorporate more opportunities to use verbal language to show understanding.

Student Population

This section provides information about the school's student population.

2018-19 Student Population			
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
497	62.4	18.1	0.2

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

2018-19 Enrollment for All Students/Student Group		
Student Group	Total	Percentage
English Learners	90	18.1
Foster Youth	1	0.2
Homeless	21	4.2
Socioeconomically Disadvantaged	310	62.4
Students with Disabilities	77	15.5

Enrollment by Race/Ethnicity

Asian	22	4.4
Filipino	5	1.0
Hispanic	213	42.9
Two or More Races	51	10.3
White	83	16.7

Conclusions based on this data:

- 62% of students are socio-economically disadvantaged, specific supports and practices in place that answer to known areas of struggle for this population: attendance, behavior, wellness.
- English Learners (18%) and Students w/ Disabilities (16%), types of needs and supports need to be clarified to identify which are similar and which are different.

This measure is based on student performance on the Smarter Balanced Summative Assessment, which is taken annually by students in grades 3–8 and grade 11.

2019 Fall Dashboard English Language Arts Data Comparisons for English Learners

Current English Learner	Reclassified English Learners	English Only
97.5 points below standard Increased Significantly ++18.3 points 77	26.6 points below standard Declined Significantly -20 points 57	25.3 points below standard Declined Significantly -16 points 262

Conclusions based on this data:

1. All students are showing decline, except current English Learner. Because we are providing support to these students but aren't as intentional with English Only and/or Reclassified
2. Identify what we are doing or going to do to respond to the data regarding ELA for Longfellow, a large portion of our population is Socio-Economically Disadvantaged and low performing in Reading, but we have no learning strategies clearly in place for students.
3. In the areas where there is mandated support (EL & SWD), there was no growth or drop, why? Because we are providing support, but not enough to move them forward.

112.4 points below standard Increased ++13.2 points 80	23.5 points below standard Increased ++4.2 points 56	42.1 points below standard Declined Significantly -21.4 points 264

Conclusions based on this data:

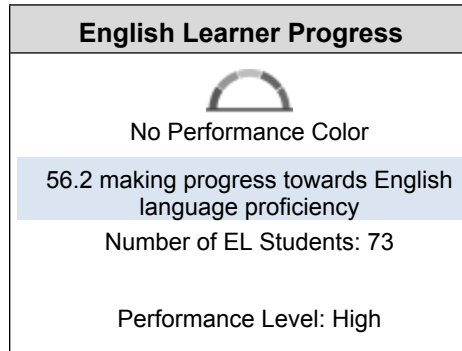

1. All Students have declined the largest decline is in African American (23 pts) and Students with Disabilities (27pts), speaks to a failure to create culturally responsive and/or differentiated actions to support students.
2. The only increase is in EL students, these students are targeted for support more than other groups.

Conclusions based on this data:

1. Chronic absenteeism declined for African American students due to Umoja and various culturally centered actions happening at school.
2. Latino and EL absenteeism increased, possible due to language/communication disparities.
3. Overall, Chronic Absenteeism is at 4%, the vast majority of students prefer to be at school.

2019 Fall Dashboard Suspension Rate by Year

2017	2018	2019
0.5	3.8	2.5

Conclusions based on this data:

1. Students of color are being over identified for behavior, while white students are not being identified at all.
2. Students with disabilities are disproportionately suspended, failure to meet accommodations could be a strong reason.
3. African American students are disproportionately suspended, an increase of culturally responsive teaching practices is needed.

Strategy/Activity 1

Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

Socio-economically Disadvantaged, EL Students, African-American Students, Students with Disabilities

Strategy/Activity

Provide Culturally Responsive Integrated & Designated Reading Supports and Practices for all students, along with directed English Language Development Supports for our EL students.

Integrated Supports:

1. Equity based academic balance when building the English classes, and aligning the appropriate support for each class, which will allow each teacher to create an environment for student success
2. Integrate the Writers' Coaches into the English Language Arts classes, aligned with best practices and content pacing calendar. Contract -district funding

Annual Review

SPSA Year Reviewed: 2020-21

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Multiple strategies were employed, we directed our focus on ELA supports, Mathematics supports, Implementation of the AVID program, RTI FTE, and Science support

Strategic academic support for language arts, included a plan to provide flexible options for additional language arts instruction and support. We planned to offer intervention classes before school, Read 180 and LLI intervention classes, and after school targeted intervention classes and tutoring via several community partnerships. In class supports included access to Accelerated Reading Program for all students while offering literature that is appropriate for varying levels of readers. In order for this to work, we needed to ensure academic balance in English classes, aligned with the appropriate support for each class. We also incorporated the Writers' Coaches partnership into the ELA classes with a goal of building solid connections with students.

Our Mathematics supported included conscientious scheduling of students keeping in mind academic need. Direct support through planned afterschool intervention classes, tutoring, and web based supports to support class instruction. Implementation of software for intervention programs in Tier 1 and Tier2.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences between intended implementation and budgeted expenditures, with the exception of monies set aside for buses and field trips were not fully used due to COVID-19 Shelter in Place orders.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In the upcoming year, we will use data to properly identify measurable goals. We will also design our plan to not solely utilize interventions as the only option to support students. We are including a great amount of time and effort in building and supporting teacher development. Our connections with tutoring and mentoring organizations, including those incorporated with AVID will have much more structured process that can have oversight. Afterschool: Partnerships that align with our school plan and have a shared evaluation process and/or pre-planning with the organization. AVID: One identified teacher for the primary AVID program, so that the person can better align tutoring expectations. As well as a much more program aligned process for student selection to the program. Accelerated Reader: Ensure teachers are trained well on procedures and have it incorporated with fidelity into the ELA theory of action.

To better support of teachers through uninterrupted PD and coaching process in content, PLC, and MTSS systems through Literacy and RTI coaches that focus solely on these systems versus dispersed responsibilities. These positions will also be focused on building the necessary Tier 1 skills to support the success of our goals.

Support teachers in being able to: Unpack standards, create strong Learning Targets, and Content Language Objectives.</p> <p>3. Support teachers in learning how to effectively look at and use data, including providing an exemplar of expectations.</p>
PLC Assessment	PLC's did not complete assessment.	PLC's will have a clear understanding of how the PLC process helps them as a team to clearly define rigorous academic work for students and how to respond when students are struggling or not learning.
AVID Schoolwide Assessment	Initiated implementation of two of the focal strategies planned, no solid data collected, and no school wide assessment done.	If we clearly establish that AVID is a schoolwide framework, and provide time and space to focus on key areas for the 2019-20 schoolyear, we will be able to institute schoolwide practices that will be incredibly useful and culturally responsive for all students. This action should directly increase the level of rigor and the teacher and students ability to utilize shared language and understanding of expectations to meet this rigor.
PBIS Self Assessment/Self Assessment Cultural Responsiveness	Began utilizing PBIS 0-8 Classroom Expectations. No assessment. Annual Review

SPSA Year Reviewed: 2020-21

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

All strategies were began and/or partially implemented. Their effectiveness was limited or difficult to prove, due to several factors: limited ability to fully assess process, teacher capacity, and shortened school year (COVID 19)

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Not enough time in the beginning to transitioning to new team and practices. Year long goals not identified. PLC practices weren't clear or followed up on. Surface level look. Teachers and staff not familiar with looking at data. People didn't know what to do with data. What teaching strategies would you use based on the data? We need to use the books for discussion. We didn't do the book study. Not enough PD time to help develop staff's capacity as a whole. . There is still a tendency to depend on RJ Facilitator to help build community & lead classroom circles of all types (community

building, harm, support). Students need more opportunities to lead circles. We need to implement PD time for RJ training for staff. Area of focus for this role is broad and not clearly defined. Not having enough time to work closely with more families, caregivers and students. No differences in budgeted expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Need PD time to develop staff's RJ capacity, teacher hourly incorporated in the summer, training in advance for the entire school year. Narrowed focus to allow more in depth work with higher needs students and families. Secondary and tertiary plans for possible COVID-19 concerns.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 6 Parent or Community Members

Name of Members	Role
Paco Furlan	Principal
Hans Abramson-Ward	Parent or Community Member
James Shultz	Parent or Community Member

	Parent or Community Member
	Parent or Community Member
Forest Borie	Classroom Teacher
Gretchen Montoya	Classroom Teacher
Jimmy Tran	Classroom Teacher
	Classroom Teacher
Tito Aquino	Other School Staff
Ellen Weiss	

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

English Learner Advisory Committee

Other: PTA
Site Leadership team

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on .
