Question

Page 20 of the RFP calls for Category 1 Equipment, does the district have a parts list for this equipment, and will it accept proposals for the equipment which are not bundled with the service?

Response

The district will accept proposals for the equipment separately from proposals for the services. However, approval of such proposals will be contingent on the approval of a services proposal which does not include equipment.

The sample part list below identifies equipment which the district believes would meet the requirements for this RFP. Please note that the district will also except responses for equivalent manufacturers and models.
