Berkeley Child Development Program**

School Site Information:

Berkeley Unified School District Child Development Program
 King CDC: 1939 Ward St., Berkeley, CA 94703
 Hopkins: 1810 Hopkins St., Berkeley, CA 94707
 Franklin: 1460 8th St., Berkeley, CA 94710

Summary of School Goals:

The BUSD Pre-K program is dedicated to meet the goals for the Local Control Accountability Plan (LCAP) and ensuring all students attending Berkeley Schools have access to high quality preschool programs and services. We are committed to supporting all students through Response to Intervention and Instruction (RtI²) at the Pre-K level to identify and support each students' unique needs. We are also committed to continuing communication between the pre-K program and families and the BUSD school sites, between pre-K teachers and BUSD TK/kindergarten classroom teachers in an effort to better support the transitional years between pre-K and TK/kindergarten. Finally, in our efforts to ensure access to foundational knowledge we will provide all students with experiences such as access to at least two experiential field trips that supports the pre-K Learning Foundations, receiving extra support from our Response and Intervention Tier II teacher, and sharing information about the developmental level of the students with the BUSD TK/kindergarten teachers.

School Profile

Berkeley Child Development Center (CDC) serves more than 250 students currently and almost 400 students (pre-COVID) from Berkeley and surrounding communities. Approximately 25% of BUSD preschool students qualify and participate in our Head Start Program. About 65% of our students are in our full day program and 35% of our students participate in our half-day program and integrated program. Included in the above enrollment we serve students by the state funded Child Development Funds, approximately 40 students participate in BUSD Special Education program in a variety of settings including full inclusion and integrated classes.

Berkeley CDC is housed at THREE campuses in three distinct areas of the city. Hopkins CDC is located in the central areas of Berkeley, King CDC is located to the South and Franklin to the West. Students arrive at our campuses from all areas of Berkeley, Oakland, Richmond, and beyond. Typically, every classroom serves 24 students in order to meet our funding requirements. However, this year due to the pandemic we average 16 students per class.

Program Philosophy and Vision

We believe that quality preschool is vital for all children. The BUSD Early Childhood Education Department provides preschool programs that nurture young children's physical, cognitive, social and emotional development, as well as develop kindergarten school readiness skills, empower families and respect the cultural and linguistic diversity and unique characteristics of our families.

The vision of Berkeley Unified School District Child Development Programs is through teacher and parent collaborations we strive to promote child-centered play and learning in all aspects of their development. Our students will leave preschool as confident, caring, responsible, and eager children who enjoy school and are ready to participate in all life experiences and environment.

Performance Goals

1. High Quality Instruction and Strategies to Promote Student Success - All students will receive the academic, social, and emotional support services they need.
 - All teachers will be supported in teaching the California Preschool Foundations in Language and Literacy Development, Approach to Learning Self-Regulation, Social and Emotional Development, English Language Development, Cognition including Math and Science, and Physical Development – Health to ensure all students have access to the curriculum necessary to be successful.
 - Students will demonstrate developmental level proficiency in language and literacy development with preschool performance serving as the district indicator of progress towards this goal.
2. Safe and welcoming positive school climates - All students will be safe at the preschool level and feel welcome. The whole community will continue to use Second Step and promote PBIS strategies developed on a regular basis.
 - Reduce the number of students with ten or more total absences by 10 percent of the 2021-2022 school year.
 - We will implement PBIS strategies in every classroom and implement new strategies.

3. Culturally and linguistically responsive systems with partnerships with families and community/cultural and linguistic responsiveness - Students and their families will feel respected, welcome and connected to their schools.

- Increase the number of students and families who report feeling welcomed and valued as a partner in their child's education.
- Increase the participants of families of color serving on the School Site Council and participating in school activities, so that the committee and parent participation represents the demographics of the student population.

Needs Assessment Components/Description of Barriers and Related School Goals

In assessing actions necessary to continue meeting the Local Control Accountability Plan, BUSD has determined that communication must carry on about students who are entering Transitional Kindergarten and Kindergarten. About 45% of the children leaving BUSD pre-schools attend kindergarten or transitional kindergarten in BUSD. While they represent only a small percent of the entire BUSD Kindergarten population they are among the higher number of children of: children of color, low income children and children with special needs, when compared to the population of Berkeley's public elementary schools.

In assessing actions necessary to meet the Local Control Accountability Plan and our family needs, BUSD has determined that the preschools should continue to invest in the successful RtI² program at the preschool level to better identify needs of Pre-K students early. Early intervention has been proven as the most effective approach (in terms of cost and outcomes) to achieving positive educational outcomes. Continuing to implement RtI² at the BUSD preschools is important since the BUSD preschools have a higher number of: children of color, low income children, and children with special needs when compared to the population of Berkeley's public elementary schools.

Among others, the California Department of Education has determined the following developmental areas to be important for pre-K children. All of these areas are assessed by CDE's DRDP: Taking turns, following complex instructions, curiosity and initiative, engagement and persistence, interest in literacy, memory and knowledge, socio-dramatic play, phonological awareness, gross motor movement, fine motor skills, balance, understanding health elements of a lifestyle. Although the classroom offers many opportunities to develop in these areas, the teachers and parents feel that outside specialists in the area of enrichment and field trips would broaden the experience of the children, helping them to grow. Furthermore, most private schools offer these services and to "level the playing field" with private preschools, the SSC felt it important to also offer these programs to Berkeley Public preschool students.

Planned Improvements in Student Performance

Goal 1: High Quality Instruction and Strategies to Promote Student Success: All students will receive the academic, social, and emotional support services they need. Staff will carry forward the preschool RtI² process that utilizes DRDP, ASQs, Head Start, Special Education Assessment and other existing data to better serve the educational needs of every student. Through assessment and data analysis at the RtI² meeting we are able to provide accurate support for the classroom whole group and/or small group settings and/or direct individual services for specific children. In addition, improving teacher communication about students transitioning to Kindergarten or Transitional Kindergarten so that BUSD preschool students have a more positive outcome in elementary school.

Means of evaluating progress:

Annual evaluation via DRDP data collection, Kinder-Readiness Snapshot, and RtI² data and services

Expenditures for this goal:

Compensation for teachers to do additional assessments and completion of Kinder Readiness forms, substitute teachers so teachers can attend meetings, and pay for coordination and services of RtI²

Specific Actions

Actions	Budget	Fund
