## 2021 School Accountability Report Card

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at [www.cde.ca.gov/ta/ac/sa/](http://www.cde.ca.gov/ta/ac/sa/)

For more information about the LCFF or the LCAP, see the CDE LCFF web page at [www.cde.ca.gov/fg/aa/lc/](http://www.cde.ca.gov/fg/aa/lc/)

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at [dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) [www.caschooldashboard.org/](http://www.caschooldashboard.org/) reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2021-22 School Overview

Longfellow is a dynamic and diverse comprehensive middle school. We work to create an environment in which all students can grow and learn. This is done by deeply understanding the specific developmental needs of the middle schooler. Our students are supported in building a perspective of agency and community responsibility. We actively engage in our diversity; we offer a variety of supports and enrichments to ensure all of our students find a place at Longfellow. Teacher as facilitator and elder is the prevalent mindset of our school. We welcome the convergence of our various cultural experiences and incorporate them in our school-wide culture.

Our general comprehensive program offers students an academic program that speaks to the whole child. All content areas are offered, and to ensure high quality learning and academic performance, we use data-informed practice to identify the areas in which our students could use increased levels of support. These support measures include, but are not limited to, subject-paired support classes, intervention classes, tutoring, and access to online support videos and other resources. We scaffold our scholarly environment: many incoming sixth graders are offered structural academic success opportunities to better help them adjust to the rigorous expectations of middle school. As an AVID school, we regularly use school-wide AVID practices. More specifically, identified students are able to participate in the AVID program as 7th & 8th graders. AVID (Advancement Via Individual Determination) is a nonprofit that changes lives by helping schools shift to a more equitable, student-centered approach. Many of Longfellow's veteran teachers are direct AVID instructors. While all Longfellow teachers are not AVID teachers, approximately 45% are trained in content-relevant AVID strategies to support closing the opportunity gap – creating the opportunity for success for all students, not just those in the AVID program. An integral part of our academic diversity is our Two Way Immersion (Spanish) program. This program offers Native Spanish and Non-Native speakers who have participated in an elementary immersion program or are able to pass the test to extend their learning. We offer 1-2 subject matter classes entirely in Spanish, strongly emphasizing bi-literacy and true cultural understanding for both the Native and Non-Native

speaker. As a comprehensive middle school, we seek to offer our students a wide range of elective options including 5 different music classes, Spanish, MakerSpace (CS, Robotics, and Design), Visual Arts, Drama, Dance and several academically oriented electives. A continuum of services for students with special needs and learning differences is available, with the goal always being to meet the student's IEP or 504 goals, while consistently incorporating these students seamlessly into the larger school community whenever possible. A jewel of our community is our Comprehensive Integrated Mental Health program. Through a partnership with several local universities, we are able to offer basic drop-in, individual, and group therapeutic services to students in need. This program speaks directly to the reality of the social-emotional needs specific to middle school: there is a strong focus on building students independence and self-advocacy in order to be better prepared for high school.

We strive to nurture our students' interests, embracing their diverse families, cultures, and communities, and developing the skill sets necessary for college and career readiness as well as those necessary to simply be a good human being. We set high expectations while providing consistent and thoughtful support. The teachers of Longfellow measure their own success by how much their students grow and learn. Both students and teachers develop their knowledge through reflection, collaboration, and meaningful work. Longfellow recognizes that this level of work is immediate and necessary in order to fulfill our mission:

Longfellow's mission is to enable our student body to achieve academic excellence and take their places as positive contributors to our world no matter what their socio-economic background may be.

Williams legislation calls for the schools to have enough books in core classes for all students and asks districts to reveal whether those books are presenting information outlined in the California content standards. Textbook materials are adopted by the school board following a rotating adoption cycle for subject specific state adopted textbooks and instructional materials.

## School Facility Conditions and Planned Improvements

The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained and in good repair. A work order process alerts district personnel of any maintenance needed to be performed and ensures that emergencies are given the highest priority.

Safety issues are the top priority for Maintenance and Operations. District maintenance supervisors inspect school sites continually and complete repairs in a timely manner. They use a work order process to ensure an efficient, prioritized repair process. The district maintenance staff has indicated that 100% of all toilets on school grounds are in working order.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2021-22 Opportunities for Parental Involvement

We welcome parents to get involved in all aspects of our school, including assisting teachers, monitoring recess periods, chaperoning events, assisting with fund-raising, helping after school, or serving as a writing coach for our 7th & 8th grade students. We also welcome parents on our School Site Council, which analyzes budgetary needs and makes funding recommendations. We are thankful for our active PTA, which has awarded teacher mini grants, sponsored winter and spring family nights and the spring fair, and much more. We motivate all parents to be involved in the easiest and simplest way, by supporting Longfellow's schoolwide and individual classroom expectations. Your student's success is indeed a partnership.

To get involved in Longfellow's PTA, please contact the school office at (510) 644-6360 or email [longfellow.pta.busd@gmail.com](mailto:longfellow.pta.busd@gmail.com).

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

<b>Expulsions</b>	0.00	0.00	0.00	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

## 2021-22 School Safety Plan

The oldest buildings of Longfellow Middle School were constructed in 1922. Currently, the school campus covers 3.73 acres and includes 27 permanent classrooms, a staff work room, a library, a gym, 1 computer lab, a cafeteria, a theater, a READ 180 lab, and a new cooking/gardening center. In the 2007-08 school year, the school renovated the Sixth Grade Building in 2008. The facility strongly supports teaching and learning through its ample classroom and recreation space.

The safety of students and staff is our primary concern. A variety of people visit the campus to volunteer in the classroom and participate in school events. During lunch, recesses, and before-and-after school, staff members, administrators, and safety officers supervise students and school grounds to ensure an orderly, safe environment. The school is always fully compliant with all rules, laws, and regulations concerning state earthquake standards and hazardous materials. Earthquake and fire drill are held quarterly, and intruder drills are held twice a year.

Our school follows COVID-19 risk mitigation protocols developed by the District in consultation with local Public Health agencies.

Safety procedures, including elements of our Comprehensive Safe School Plan, are reviewed with school and district staff at the start of each school year. The plan was last updated and reviewed with school staff in fall 2020.

During the 2021-22 school year all new teachers to BUSD engaged in two days of professional development on curriculum and effective pedagogical practices to empower students on 8/9 and 8/10 2021. All TK-8 teachers engaged in 3 full days of professional development on 8/12, 10/11, and 1/31. Professional development focused on integration of the 7 tenets of Ethnic Studies and the Five Pursuits of abolitionist teaching. Additionally, teachers engaged in deepening their understanding on Universal Design for Learning. All 6-8th grade teachers engaged in 5 two hour sessions which were dedicated collaboration time to continue to deepen their learning . All TK-5 teachers engaged in collaboration on the writing process and scoring. Every TK-8 site has a Literacy Coach Equity Lead, and a Math Teacher Leader to support teachers in reflecting and improving math and literacy teaching skills through co-teaching and direct professional development at staff meetings. Professional development in TK-8 has explicitly focused on best practices to engage and empower students through abolitionist and culturally responsive teaching. New teachers participate in a rigorous District Teacher Induction program. Teacher-initiated professional development is supported through local funds earmarked for this purpose and through school site funds, as well.

## 2020-21 Local Accountability Report Card (LARC) Addendum

### Local Accountability Report Card (LARC) Addendum

#### 2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
