

Software Title: Zearn

Reviewer Name: Max Eissler

Review Date: 2/23/2023

Final Review Status: Fail

Process and Protocols: If the vendor provides a Voluntary Product Accessibility Template, transfer the information directly from that template. Any standard that has an exception or less than 100% compliance shall be marked as a "fail." If a VPAT has two or fewer failed standards, and no required standard has failed, the product shall pass. If a product has 3 to 5 failed standards, a manual assessment must be done. Products failing 6 or more standards, or failing any of the required standards are considered to have failed.

For manual assessments, any product which fails a required standard or fails 6 or more standards overall is considered to have failed.

| BUSD Web Accessibility Checklist | | |
|--|-----------------|--|
| Standard (*=required) | Status | Notes |
| * Baseline Test ID: 1.1-KeyboardAccess WCAG Standards: 2.1.1 Keyboard | Fail | On the first module tested, "The Counting Train", there was no keyboard access to the activity |
