2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Longfellow is a dynamic and diverse comprehensive middle school. We work to create an environment in which all students can grow and learn. This is done by deeply understanding the specific developmental needs of the middle schooler. Our students are supported in building a perspective of agency and community responsibility. We actively engage in our diversity; we offer a variety of supports and enrichments to ensure all of our students find a place at Longfellow. Teachers as facilitators and elders are the predominant mindset of our school. We welcome the convergence of our various cultural experiences and incorporate them into our school-wide culture.

Our general comprehensive program offers students an academic program that speaks to the whole child. All content areas are offered, and to ensure high-quality learning and academic performance, we use data-informed practice to identify the areas where our students could use increased levels of support. These support measures include but are not limited to, subject-paired support classes, intervention classes, tutoring, and access to online support videos and other resources. We scaffold our scholarly environment: many incoming sixth graders are offered structural academic success opportunities to help them better adjust to the rigorous expectations of middle school. As an AVID school, we regularly use school-wide AVID practices. Specifically, identified students can participate in the AVID program as 7th & 8th graders. AVID (Advancement Via Individual Determination) is a nonprofit that changes lives by helping schools shift to a more equitable, student-centered approach.

Our Two Way Immersion (Spanish) program is integral to our academic diversity. This program offers Native Spanish and Non-Native speakers who have participated in an elementary immersion program or can pass the test to extend their learning. We offer 1-2 subject matter classes entirely in Spanish, strongly emphasizing bi-literacy and true cultural understanding for both Native and Non-Native speakers. We also offer the Umoja, a BUSD program specifically designed for Black/African American learners. This unique program is offered as a school day Cultural Enrichment for 6th-8th graders. It is exclusively available at Longfellow. As a comprehensive middle school, we seek to offer our students a wide range of elective options, including five music classes, Gardening and Cooking, Spanish, MakerSpace (CS, Robotics, and Design), Visual Arts, Drama, Dance, and several academically oriented electives.

A continuum of services for students with special needs and learning differences is available. The goal is always to meet the student's IEP or 504 goals while consistently incorporating these students seamlessly into the larger school community whenever possible. Through our Comprehensive Integrated Mental Health program, we partner with several local universities; we can offer basic drop-in, individual, and group therapeutic services to students in need. This program speaks directly to the

2023-24 School Description and Mission Statement

reality of the social-emotional needs specific to middle school. A strong focus is on building students' independence and self-advocacy to be better prepared for high school. We strive to nurture our students' interests, embracing their diverse families, cultures, and communities and developing the skill sets necessary for college and career readiness and those necessary to be a good human being. We set high expectations while providing consistent and thoughtful support. Longfellow's teachers measure their success by how much their students grow and learn. Both students and teachers develop their knowledge through reflection, collaboration, and meaningful work. Longfellow recognizes that this level of work is immediate and necessary to fulfill our mission:

Longfellow's mission is to enable our student body to achieve academic excellence and take their places as positive contributors to our world, regardless of their socio-economic background.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Williams legislation calls for the schools to have enough books in core classes for all students and asks districts to reveal whether those books are presenting information outlined in the California content standards. Textbook materials are adopted by the school board following a rotating adoption cycle for subject specific state adopted textbooks and instructional materials.

School Facility Conditions and Planned Improvements

The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained and in good repair. A work order process alerts district personnel of any maintenance needed to be performed and ensures that emergencies are given the highest priority.

Safety issues are the top priority for Maintenance and Operations. District maintenance supervisors inspect school sites continually and complete repairs in a timely manner. They use a work order process to ensure an efficient, prioritized repair process. The district maintenance staff has indicated that 100% of all toilets on school grounds are in working order.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	32	40	57	61	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Berkeley Unified School District and Longfellow Middle School commit to family engagement that builds relational trust, links families to learning, connects schools and families to community resources, and develops the capacity of staff and families to partner together and lead student learning. Our school welcomes families to engage with school staff daily by communicating on the phone, via email, through district and school social media, and in person. It will receive regular communications via school newsletters. Families needing translation and interpretation services can seek support from the school office staff. Families are invited to attend various special events throughout the year, including assemblies for academic and citizenship honorees and heritage months, Family Math and Literacy Nights, Back-to-School and Open House Nights, and field trips as chaperones. Learning opportunities for families are available throughout the year at the school and district level on topics such as supporting your child's literacy development, building social/emotional competencies, and supporting mental and physical wellness. We believe families should be partners in student learning. We are provided various opportunities for input in important decisions through surveys and participation on leadership committees such as the School Site Council, English Learner Advisory Committee, Parent Teacher Association, and various additional school-based committees. Opportunities for families to gather in affinity-based spaces are provided throughout the district and school. For more information on family engagement opportunities and resources, please contact Salita Mitchell, Principal.

To get involved in Longfellow's PTA, please contact the school office at (510) 644-6360 or email longfellow.pta.busd@gmail.com.

2023-24 School Safety Plan

The oldest buildings of Longfellow Middle School were constructed in 1922. Currently, the school campus covers 3.73 acres. It includes 27 permanent classrooms, a staff work room, a library, a gym, one computer lab, a cafeteria, a theater, a READ 180 lab, and a new cooking/gardening center. In the 2007-08 school year, the school renovated the Sixth Grade Building in 2008. The facility strongly supports teaching and learning through its ample classroom and recreation space.

The safety of students and staff is our primary concern. Various people visit the campus to volunteer in the classroom and participate in school events. During lunch, recess, and before and after school, staff members, administrators, and safety officers supervise students and school grounds to ensure an orderly, safe environment. The school always fully complies with all rules, laws, and regulations concerning state earthquake standards and hazardous materials. Earthquake and fire drills are held quarterly, and intruder drills are held twice yearly.

Our school follows COVID-19 risk mitigation protocols developed by the District in consultation with local Public Health agencies. Safety procedures, including our Comprehensive Safe School Plan elements, are reviewed with school and district staff at the start of each school year. The plan was last updated and reviewed with school staff in the fall of 2023.

Fiscal Year 2022-23 Types of Services Funded

The Berkeley Unified School District receives federal funding to provide supplemental services and instructional materials provided to the Title I schools that support schools that have high numbers of students that are socioeconomically disadvantaged. Supplemental services include intervention supports, curriculum, programming, and instructional supplies for Title I schools to close the achievement gap.

The district also receives supplemental and concentration funds as part of the Local Control Funding Formula that is used to pay for direct services for unduplicated students through a variety of resources and materials. Funds are utilized to support students to graduate college and/or career ready. The district makes certain that all students have access to and success in a broad curriculum. We do this by expanding College and Career support programs, Career Pathways, and implementing intervention systems. Direct services include staffing, intervention support, counselors, and academic coaches.

Professional Development

During the 2023-24 school year (until January 2023 all new teachers to BUSD engaged in two days of professional development on curriculum and effective pedagogical practices to empower students on 8/8 and 8/9 2022. All TK-8 teachers engaged in 2 full days of site based professional development on 8/10 and 8/11. On 10/9/23, all TK-8 staff (certificated and classified) engaged in an all day professional development. The focus for K-5 was on the CORE Reading Academy Day 1. Additionally, all elementary sites are engaging in ongoing (year long) districtwide professional development focused on the CORE reading academic. Every TK-8 site has a Literacy Coach Equity Lead, and a Math Teacher Leader to support teachers in reflecting and improving math and literacy teaching skills through co-teaching and direct professional development at staff meetings. New teachers participate in a rigorous District Teacher Induction program. Teacher-initiated professional development is supported through local funds earmarked for this purpose and through school site funds, as well.

This table displays the number of school days dedicated to staff development and continuous improvement.
